

The FAA Safety Team presents:

Safety Directors Forum at HAI HELI-EXPO 2016

Using recent helicopter accidents and their investigations as a springboard, senior National Transportation Safety Board (NTSB) and FAA investigative managers and engineers will facilitate a discussion about recent rulemaking that is impacting — or could soon impact — the helicopter industry. Safety directors or their representatives will be able to engage the presenters in an open discussion of the potential challenges and solutions regarding these new requirements. This is a unique opportunity for anyone managing an aviation safety program. This course is offered at the HAI Rotor Safety Challenge at HELI-EXPO 2016. These sessions are FREE to all HELI-EXPO 2016 registered attendees and exhibitors.

Attend at least six Rotor Safety Challenge sessions at HELI-EXPO 2016 and receive a certificate of recognition for completing the 2016 HAI Rotor Safety Challenge.

Take the Safety Challenge in three simple steps:
1. Select safety sessions to attend from the HAI Rotor Safety Challenge Schedule. To see the full Safety Challenge schedule, visit <http://www.rotor.com/takethechallenge>.

2. At the conclusion of each session, receive an official token from the room monitor or presenter.
3. Once you have earned at least six tokens, drop
